

**Maranatha**- prides itself on being a small and intimate, family friendly lodge. We are licenced to sleep 19 in the 9 rooms on site. The rooms are clean and basic with linen supplied, storage in each room along with a hand basin and heating. Rooms 1 and 2 have an ensuite whilst the upstairs rooms have shared facilities. We have an onsite Manager who runs the lodge on a day to day basis, preparing meals and cleaning the communal areas. Guests are required to clean and vacuum their rooms on departure and participate in rostered duties throughout their stay. Duties may include serving meals, preparing the fire, cutting wood and removing recycling. These duties are allocated by a Hut Captain who is a lodge member.

The upstairs lounge room has commanding views of Perisher Valley from Front Valley to Mt Perisher. Enjoy the sun drenched room if you are a skier or non-skier and take in the action of those outside or just relax!

Our view across the lounge room to the dining area with arguably the best view in the valley to eat your breakfast, lunch and dinner.

Pictures of the Lounge room on the middle floor. Wood fire place and comfortable leather lounge suites to soak up the atmosphere and spin a yarn about your day on the snow. There is a stereo system in the lodge but no TV. There is a games cupboard in the upstairs lounge room.

The entrance to the kitchen on the right and the entrance to rooms 3,4 and 5 off to the left.

**Room 9** on the top floor is ideal for families needing more space. There is a triple bunk and 2 single beds with plenty of room for changing and storing your bits and pieces.

An example of shower and toilet facilities. There are two showers and toilets on each level.

**Room 4** on the dining level sleeps 4. There are extra safety rails at the lodge if kids are on the top bunk. Plenty of storage and room to move.

Rooms 3, 5, 6 & 8 has a triple bunk, plenty of storage and room to move.

## Rooms 1 and 2

These are the new ensuite rooms on the ground floor. They have a triple bunk and ample room to move around in with fantastic views of the valley.

A rough sketch of the Lodge to give an idea of the floor plan. It is by no means to scale and is meant as a guide only to the location of facilities within the lodge.
